

# Lost in Lafferre Scavenger Hunt

Break up into Groups of 3 (Different than your project groups!)

Do the math to find the room number that you are locating. (You're engineers, this is what you do!)

Search and search until you find the room; Take a selfie with each room when you find it. 📷

Find at least 20 rooms, and come back to where we started, I will check your pictures and you are done for the day!

I will only mark you as present if you come back. 😊

The first team to find all 27 and come back wins a mystery prize! 🎁
